

More of Everything

Wellington

The family room of the Wellington has it all—cathedral ceiling, attractive corner fireplace and atrium doors to the exterior. The country kitchen has it all, too, with its convenient access to the large utility room, pantry, and easy access to the exterior for offloading groceries and supplies. The second and third bedrooms feature walk-in closets, private vanities, and share a Hollywood bath with separate rooms for bath and commode. The large master suite, separated from the other bedrooms for privacy, has a large walk-in closet, separate vanities and a luxurious garden tub with separate shower.

1,994 sq. ft.
